Qualifications

Education: High School Diploma or GED preferred.

Experience: Previous experience in a plant preferred.

Required Licenses or Specific Training: Must have valid state id and social security card.

Other Required Skills, Knowledge or Abilities: Ability to read, write and comprehend English (operational, process, safety and quality instructions and work permits and Plant / Refinery Fire Watch and Fresh Air procedures). Second language is a plus.

Ability to quickly grasp training and pass certifications to work in-plant.

Ability to operate equipment including atmospheric monitoring meters (O₂, H₂S, CO & LEL), radios and fire extinguishers. Familiarity with plant equipment where work is being performed is helpful.

Ability to add, subtract, multiply, and divide in all units of measure, using whole numbers, common fractions, and decimals.

Ability to quickly become proficient in the care and use of all site specific, facility required

Personal Protection Equipment.

Must be able to work outdoors in an industrial environment.

Must demonstrate ability to work in a team environment and willingness to assume additional or new responsibilities readily.

Interpersonal Communications: Ability to read, write and comprehend English (operational, process, safety and quality instructions and work permits and Plant / Refinery Fire Watch and Fresh Air procedures). Second language is a plus. Must have good communication skills (verbal, written and interpersonal) and have confidence to tell someone that they may not perform work if conditions or procedures are not safe. Contacts with immediate associates and immediate supervisor for instructions, training, and guidance. Frequent contact with customer and job site personnel so communication and interpersonal skills are critical to success.

Physical Demands:

While performing the duties of this job, the employee is regularly required to stand, walk, climb, stoop and bend. Uses hands to finger, handle, or feel; reach with hands and arms; and talk or hear. The employee is occasionally required to stand; walk; and stoop, kneel, crouch, or crawl. Must occasionally lift and/or move up to 50 pounds. Specific vision abilities required by this job include close vision, distance vision, color vision, and ability to adjust focus.

Work Environment:

Industrial or shop environment. Frequently exposed to wet, humid, outside weather conditions and vibration. Works in some customer environments during later part of training. May be exposed to high pressure, chemicals, gas releases, or fire. The noise level in work environment is usually moderate.

Reporting Relationships

Complexity of Duties and Decisions: Must follow established operational, process, compliance and safety and emergency response procedures. Must adhere to specifications and schedule. Work is reviewed for completeness and accuracy, or inherent checks are built into the nature of the work. Most errors are caught during self-inspection or by higher level staff before leaving work unit.

Authority: Works under close supervision: Works with a supervisor or a more experienced Attendant or Technician to learn the job.

About Atlantis Technical Solutions:

ATS is the world's premier provider of integrated safety and compliance services and the products necessary to support them, including gas detection, respiratory protection, safety training, fire protection, compliance and inspection, comprehensive flare services, industrial hygiene, onsite emergency medical treatment/paramedics, communications systems, engineered systems design, and materials management.

ATS is proud to be an Equal Opportunity Employer and will not discriminate based on race, color, religion, sex, sexual orientation, gender identity, national origin, age, disability, protected veteran status or any other protected status.
